Data Center Staging & Deployment

Your Provisioning Partner for Enterprise, Colocation, and Managed Facilities

Your Facility Demands Specialists.

Over 20,000 Successful Technical Deployments

Move Solutions and its sister company TechTeam Solutions have worked on staging and deployment projects at organizations of every size, nationwide.

Defined 8-Step Technical Process

Every project follows our documented methodology, taking your equipment from arrival to operational in eight proven steps with no shortcuts.

Trusted in Sensitive Environments

GSA Schedule Holder serving federal agencies, defense contractors, and Fortune 500 enterprises. Background-checked crews and drug screening.

We Know What's at Stake

We Serve Every Facility Type. Every Deadline. On Schedule.

A missed delivery window. Equipment staged in the wrong location. These are vendors who don't understand your provisioning schedule. In your data center, these aren't minor problems. They're costly delays.

Move Solutions and its sister company TechTeam Solutions have supported data center operations for over 40 years, serving federal agencies, defense contractors, and Fortune 500 enterprises. We're the knowledgeable hands in your provisioning cycle.

How We Support Your Data Center

Equipment Receiving and Staging

Before your facility is operational, we receive, inventory, and securely stage new infrastructure, coordinating deployment.

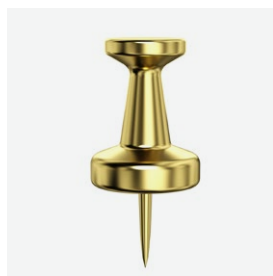

Deployment Scheduling. Your Deadlines, Our Priority

We build project plans around your provisioning schedule and go-live dates. Your deadlines drive ours.

Air-Ride Transport for Sensitive Electronics

Our air-ride trucks absorb road shock so your servers don't. Specialized IT carts and packing keep everything secure.

BrassTacks®: Real-Time Visibility for Your Assets

Our proprietary platform tracks every asset, documents every step, and lets you see progress in real time.

We Address Real Concerns

Downtime Risk?

Phased cutovers, detailed runbooks, verification

Equipment Damage?

Air-ride transport, specialized IT equipment and packing material

Audit Trail Gaps?

BrassTacks® platform, full documentation provided

Company Credentials?

GSA cleared for secure facilities

Personnel Security?

Background-checked and drug-screened crews

Reconnection Errors?

Cable labeling, photo documentation

Vendor Coordination?

Dedicated Tech Manager coordinates all teams

Project Visibility?

Real-time tracking provided

Our 8-Step Deployment Process

Documented. Repeatable. Proven Over 20,000 Deployments.

1

Project Planning

Scope, schedule,
go-live targets

2

Receive & Inventory

Delivery coordination,
asset verification

3

Secure Staging

Inventoried, organized,
ready for deployment

4

Protected Transport

Air-ride delivery
to your facility

5

Placement

Positioned to floor plan
and rack specs

6

Rack & Stack

Installed per your
specifications

7

Connect

Cabling routed
and labeled

8

Sign-Off

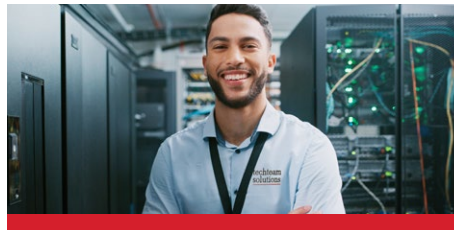

Verified and handed
off on schedule

Complete Data Center Project Support

Equipment Receiving & Staging

We receive, inventory, and securely stage your equipment, coordinating with your team to hit deployment dates.

Server & Network Installation

We place and install server and network equipment according to your floor plans and rack elevations.

End-User Provisioning

Workstation setup for operations and administrative areas supporting your facility.

Low-Voltage Cabling

Installation, removal, and management of voice and data infrastructure by experienced technicians.

Certified Data Destruction

NAID AAA-Certified shredding, R2-Certified recycling, certificates provided. Compliant and documented.

Asset Disposition

Secure removal, thorough documentation, and environmentally responsible disposition of equipment.

The Questions You Should Be Asking

(And Our Answers)

Am I hiring Move Solutions or TechTeam Solutions?

You're hiring Move Solutions and getting the specialized expertise of our sister company, TechTeam Solutions. Move Solutions handles logistics and project management. TechTeam provides technical expertise for server deployments, cable management, and equipment handling. Together, we deliver an integrated team built for your data center project.

What's your experience with mission-critical environments?

Enterprise facilities with strict access protocols. Colos with shared loading docks. Edge sites with tight footprints. We've worked in all of them and understand what each requires.

Who handles my equipment?

Enterprise data centers, colocation facilities, managed services environments, edge deployments, and hyperscale builds. Whatever your facility type, we provide the skilled hands your provisioning cycle requires.

What kind of equipment do you use?

Air-ride vehicles eliminate vibration. Specialized IT equipment and packing materials are purpose-built for server and network equipment.

What documentation do you provide?

Our BrassTacks platform provides real-time tracking, cable labeling, photographic documentation, and inventory tracking. Full audit trail for compliance.
